THE SOCIETY

The Logan River and District Family History Society was formed in June 2001 and is a non-political, non-sectarian, non-profit organisation that aims to bring together those people who are interested in the study of genealogy, family and local history, and to encourage and to assist members in their studies. It also aims to preserve historical records and to maintain a reference and research library. Another aim of the Society is to collect and preserve material bearing on the families of the people of the Logan River District.
